Smoking and Health Care Costs: How Soon After Quitting Do Companies See Savings?

The cost of smoking for employers is cited as \$6,000 extra per tobacco user per year compared to a non-smoker, so what happens to an employer's health care savings when someone quits smoking? The EX Program shares the immediate and long-term benefits.

TOBACCO COMPLIANCE

Checks were completed in August and (26) businesses were visited with (4) sales. Congratulations to the businesses that **DID NOT SELL** tobacco to underage youth. Together we are making a difference for Green County youth!

Vaping in Schools: The Epidemic Continues

Vape pens are one of the most rapidly evolving drug trends in the United States and around the world. Vapes are sweeping the country, but what we are quickly finding is that a vape pen can contain much more than just nicotine which is what we are going to highlight more in this article today.
